Reproduis les figures suivantes sur une feuille blanche.

 <p>Three overlapping circles are shown. The leftmost circle has a center point labeled 'O'. The middle circle has a center point labeled 'A'. The rightmost circle has a center point labeled 'B'. The circles overlap in pairs and all three overlap in the center. A horizontal line is drawn below the circles.</p>	
--	--

 <p>A circle is shown with two diameters drawn across it, intersecting at the center. The diameters are perpendicular to each other, forming an 'X' shape inside the circle.</p>	
--	--

 <p>A large circle is shown with a smaller circle inside it. The smaller circle is positioned such that it is tangent to the bottom of the larger circle and also tangent to the right side of the larger circle.</p>
